Introducing ALUNA+ DAYLIGHT...

At Alunet Systems, we believe aluminium fabrication should be as bold and bright as the buildings you help create. That's why we're proud to introduce our new complete daylight range, combining two industry leading solutions...

The **Aluna+** Rooflight and the **Aluna+** Lantern!

Precision-engineered, installer-focused, and built to impress - this is daylight redefined!

Versatile and luxurious daylight aluminium systems with stunning frames and incredible sightlines.

Every part of the Aluna+ daylight range is designed with you in mind:

+ Under 1-hour installs
+ Minimal fixings and no silicone required
+ Fast quotes and flexible lead times
+ Full marketing, technical, and fabrication support
+ Nationwide assisted surveys and installations available
+ Dedicated Account Managers and 24/7 Trade Portal support.

Aluna+ Lantern

The Icon of Roof Lantern Innovation!

Our Aluna+ Lantern is designed to Make It Easy for fabricators and installers, while delivering next-level architectural elegance.

Key Features & Benefits:

+ **Fastest installation time in the market** – thanks to our innovative Q-lok system
+ **The most thermally efficient lantern on the market**
+ **Ultra-slim sightlines** – more glass, more light, more wow
+ **Thermally broken GRP ring beam** – the strongest on the market
+ **The largest lantern on the market** - high strength to weight ratio
+ **Secure & future-proof** – with internal glazing clips and anti-tamper screws
+ **Tailored to fit** – made to order, square and rectangular options up to 4m x 8m
+ **10-year guarantee** – and built to last
+ **Colour freedom** – standard Black, Grey, White or any RAL shade
+ **Integrated LED lighting**
+ **Self-cleaning glass** – with clear, neutral, laminated and blue tinted options

Whether it's a contemporary home or a premium extension, the Aluna+ Lantern delivers style, simplicity, and standout performance.

Aluna+ Rooflight

Effortless Elegance, Above & Beyond!

Our Aluna+ Rooflight is the ultimate flat roof glazing solution for contemporary living. Combining minimalist design with maximum performance, it's a clean, modern, and highly efficient way to transform residential interiors.

Key Features & Benefits:

+ Fully thermally broken aluminium frame dramatically reduces heat transfer
+ Delivers outstanding U-values; 1.3 W/m K double-glazed, 0.92 W/m K triple-glazed
+ Fast efficient installation
+ Self-cleaning, high-performance safety glass - less maintenance, longer clarity
+ Slimline, low-profile aesthetics - frameless internal views for uninterrupted views of the sky
+ Noise reducing
+ Partially bonded top caps and concealed internal fixings - ensure a seamless, secure finish
+ Integral drainage system - purpose-built to direct moisture safely away from the glass edge and frame
+ Internal security fixings - secured from the inside for added security
+ Bespoke sizing & design flexibility - made to measure up to a maximum glazing area of 2.5m
+ RAL colour-matched frames - available in standard Matt Black, Anthracite Grey or White, any RAL colour on request
+ Glass tint choices - available in neutral or blue tinted glass
+ Future Homes Ready - ensuring longevity and compliance beyond 2025
+ Optional ceramic border - enhances visual finish by concealing the internal frame with a premium black perimeter

This premium rooflight is designed with the fabricator and installer in mind, offering precision engineering, future-proof energy efficiency, and exceptional ease of installation, all with the unrivalled service and support you'd expect from the Alunet team.
